A2Z GLOBAL

Capability Statement

A2Z Global Group Pty Ltd | ABN 89 646 408 148 | Victoria, Australia | sales@a2zglobalgroup.com | +61 481 830 062 | www.a2zglobalgroup.com

Who we are

A2Z Global Group Pty Ltd is an Australian-registered supplier of fabricated, machined, cast, forged and hot-dip galvanised steel parts. We buy through vetted manufacturing partners in India and supply Australian manufacturers, distributors and project teams. Alongside trading, we provide procurement consultancy for clients who want to develop their own low-cost-country supply of engineered goods.

What we supply

- Fabrication and welded assemblies, sheet metal and pressed parts
- CNC machined components, shafts, pulleys, sprockets and gears
- Castings and forgings in iron, steel and alloys, machined and certified
- Hot-dip galvanised steel parts, coated nuts, bolts and industrial hardware
- Valves, pipe fittings and flanges, hydraulic and industrial hoses
- Conveyor components, machinery spares, polymer and rubber parts

Services

Trading	We buy, inspect, ship and invoice you one landed price, with a single point of accountability from order to delivery.
Consultancy	Supplier sourcing and vetting, RFQ and technical management, quality control, logistics and full supply-chain management.
Engagement	Commission sourcing at 5 to 15% of order value, managed buy and sell at a landed price plus margin, or a monthly retainer for ongoing programs.

Industries served

Automotive components, special purpose machinery, trailer manufacturing, agricultural, food industry, mining and METS, construction, oil and gas, marine, renewable energy, general manufacturing, conveyors, polymer and rubber, hardware and distribution.

How we work

- **Discovery and specification.** We scope your drawings, quantities and requirements, and confirm feasibility.
- **Supplier matching.** We shortlist and vet qualified manufacturers, then run a competitive RFQ.
- **Sampling and approval.** First-article samples and material certificates before any bulk run.
- **Production and quality control.** In-process checks and inspection to an agreed plan. On larger runs such as hardware, we inspect by lot in line with the inspection plan.
- **Logistics and export.** Documentation, consolidation, freight and customs handled end to end.
- **Delivery and support.** Delivered to your facility, with warranty management and reorder support.

Why clients choose us

- Australian-registered company with a local point of contact
- On-the-ground supplier network and quality control in India
- Specialists in castings, forgings, machining and fabrication, not a general broker

- Transparent pricing with no hidden mark-ups in the commission model
- ECTA free-trade advantage on India to Australia trade
- Potential savings of up to 40% on landed cost, depending on part and volume

What to send for a quotation

Drawing, model or sample; order quantity and annual usage; material and grade; critical tolerances and surface finish; any coating or heat treatment; target delivery date and destination. Email drawings to sales@a2zglobalgroup.com quoting your company name, or see www.a2zglobalgroup.com/request-a-quote.html
